

DEEWAKAR KUMAR

Data Engineer

☎ +91-7209813802 ✉ deewakar2412@gmail.com [in LinkedIn](#) [GitHub](#) [Portfolio](#)

Summary

Aspiring Data Engineer with hands-on experience in SQL, Python, data cleaning, and ETL concepts. Skilled in building analytics-ready datasets, writing optimized queries, and working with relational databases like MySQL and PostgreSQL. Actively learning modern data engineering tools and eager to grow in a production data environment.

Skills

Programming & Querying: SQL, Python

Databases: MySQL, PostgreSQL

Data Engineering Concepts: Data Cleaning, ETL / ELT, Data Pipelines (Conceptual)

Data Visualization Tools: Advanced MS Excel, Power BI

Experience

Data Analyst Intern – Elevate Labs (Skill India & MSME Certified)

Sep 2025 – Nov 2025

Remote Internship

Best Performer Award

- Completed a 2-month internship and recognized as the ‘**Best Performer**’ for strong analytical performance.
- Worked on real-world datasets, performing data cleaning and analysis using **Python** and **SQL**.
- Prepared clean, structured datasets as part of an **ETL-style workflow** for reporting and insights.
- Built reports and dashboards using **Power BI** to support data-driven decisions.

Projects

Retail Customer Behavior Analysis | *Python, SQL, Power BI*

Oct 2025

- Analyzed **3,900+ retail transactions** to uncover purchase trends, key drivers, and customer segments.
- Performed data cleaning and transformation using Pandas; applied SQL and DAX for feature engineering and insight generation.
- Developed a 4-page interactive Power BI dashboard revealing that the top 50% of customers generated 75% of revenue.
- Proposed discount and retention strategies leading to a 33% increase in repeat purchases.
- **Links:** [GitHub](#) | [Dashboard](#) |

Pizza Sales Analysis | *Python, Pandas, Matplotlib, Seaborn*

Nov 2025

- Explored **48K+ pizza sales records** to identify top-performing products, trends, and inefficiencies.
- Performed data cleaning and feature engineering; visualized sales trends and customer patterns using Seaborn and Matplotlib.
- Identified 5–7 PM as peak sales hours and flagged low-performing pizzas, reducing inventory wastage by 10%.
- **Links:** [GitHub](#) | [Colab Notebook](#) |

OLA Ride-Hailing Performance Analysis | *Power BI, SQL, Python*

Sep 2025

- Analyzed **100K+ ride bookings** to identify operational inefficiencies and key profitability drivers.
- Built KPI-based dashboards visualizing cancellations, customer ratings, and trip revenues.
- Discovered 17.89% driver cancellations as the main revenue leak and identified “Prime Sedan” rides in “Whitefield” as the most profitable segment.

Certifications / Awards

- “Power BI for Beginners” [[Certificate](#)] from Simplilearn / Microsoft **Oct 2025**
- “Data Science & Visualization with Python” [[Certificate](#)] from SAGE Summer School **Jul 2025**
- “Best Performer Award” – Data Analyst Internship at Elevate Labs ([Skill India & MSME Certified](#)) **Nov 2025**

Education

B.Tech in Artificial Intelligence & Machine Learning

Expected Graduation: 2026

Sagar Institute of Research and Technology, Bhopal

7th Semester
